Translation:

FreyaWiki: Recommendations

I am new here

If you are planning to edit the recommendations, please register and fill in your background characteristics. Click on the following link.

Share your ideas
Click below on the section, of which you would like to share your ideas. For example, you have a recommendation for the General Practitioner, then click on General practitioner and look if your recommendation has been previously formulated by someone else. If not, you may add your recommendation. If you have a recommendation for the entire fertility care, then you can leave it in the General Care section. If you have a recommendation, of which you don’t know to which section this applies, you may add this to the section Remaining.

Sections

* General care
* General Practitioner
* Gynecologist
* Urologist
