In "Constructing High-Fidelity Phenotype Knowledge Graphs for Infectious Diseases With a Fine-Grained Semantic Information Model: Development and Usability Study" (J Med Internet Res 2021;23(6):e26892) the authors noted three errors.

- 1. In the originally published manuscript, affiliation 1, 2, and 3 were incorrectly mentioned as follows:
 - ¹Suzhou Institute of Systems Medicine, Suzhou, China
 - ²Jiangsu Institute of Clinical Immunology, Jiangsu Key Laboratory of Clinical Immunology, The First Affiliated Hospital of Soochow University, Suzhou, China
 - ³Center of Systems Medicine, Institute of Basic Medical Sciences, Chinese Academy of Medical Sciences & Peking Union Medical College, Beijing, China

These have been corrected to the following:

¹Center of Systems Medicine, Institute of Basic Medical Sciences, Chinese Academy of Medical Sciences & Peking Union Medical College, Beijing, China

- ²Suzhou Institute of Systems Medicine, Suzhou, China
- ³Jiangsu Institute of Clinical Immunology, Jiangsu Key Laboratory of Clinical Immunology, The First Affiliated Hospital of Soochow University, Suzhou, China
- 2. The affiliation "Center of Systems Medicine, Institute of Basic Medical Sciences, Chinese Academy of Medical Sciences & Peking Union Medical College, Beijing, China" was originally listed only for author Taijiao Jiang. This affiliation has now been added to authors Lizong Deng, Luming Chen, Tao Yang, and Shicheng Li in addition to author Taijiao Jiang.
- 3. The address of the corresponding author was originally published as follows:

Chongwen Road 100

Suzhou Industrial Park

Suzhou, 215000

China

This has been corrected to the following:

#5 Dong Dan San Tiao

Dongcheng District

¹ Center of Systems Medicine, Institute of Basic Medical Sciences, Chinese Academy of Medical Sciences & Peking Union Medical College, Beijing, China

²Suzhou Institute of Systems Medicine, Suzhou, China

³Jiangsu Institute of Clinical Immunology, Jiangsu Key Laboratory of Clinical Immunology, The First Affiliated Hospital of Soochow University, Suzhou, China

⁴Guangzhou Laboratory, Guangzhou, China
