Correction of: <https://www.jmir.org/2025/1/e65892>

(*J Med Internet Res* 2025;27:e83135) doi: [10.2196/83135](https://doi.org/10.2196/83135)

In “Schema-Informed Digital Mental Health Intervention for Maladaptive Cognitive-Emotional Patterns: Randomized Controlled Trial” (*J Med Internet Res* 2025;27:e65892) the authors made a few corrections to Table 1:

In the “Total program” row, the Age (years) value was:

1.95 (8.09; 18–58)

It has been revised to:

31.95 (8.09; 18–58)

In addition, in Table 1, the following corrections were made:

- Removed the word “program” so the row reads “Total” only.
- Removed percentage values for the “Total” row to match other rows.
- Reordered the rows as Total – Riggy – Pleaser – Shelly – Jumpy.

The correction will appear in the online version of the paper on the JMIR Publications website together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.

This is a non-peer-reviewed article. Submitted 28.08.25; accepted 28.08.25; published 17.09.25.
