| <p>In my case, I would need to learn about how to use a computer if I were to do this program. I am way too old to learn things like this. I just got an iPhone, if that's what it's called, from my daughter. She thought we could send pictures to each other and things like that. That is what I am talking from now. I get so upset, this gadget drives me crazy. It has its own mind. And my computer is the same.</p> | <p>I would need to learn about how to use a computer if I were to do this program.
