Responses indicating a level of non-adherence prompt a series of questions to determine why the patient is not willing or able to follow recommendations and what they intend to do

1. Based on your response, please select the reason that best describes your reluctance to being more compliant with the health recommendations:

- I do not understand or am confused about the treatment(s)
- I cannot afford the treatment(s)
- I am concerned my doctor may have misdiagnosed my condition
- I believe I am being over-treated for my condition or have been recommended services that are unnecessary. Please explain:
- I believe I am being under-treated for my condition. Please explain:
- I do not agree with or am apprehensive about the recommended treatment(s) because:
- I do not want to follow the health recommendations

2. To become more comfortable with the recommended treatment(s), I plan to:

- Return to my doctor for additional consultation
- Seek advice from another doctor
