Please share with your doctor how closely you are following the health recommendations contained in this article as you understand them.

- Closely following
- Mostly following
- Somewhat following
- Mostly not following
- Not following
- Other (please explain):

1. Based on your response, please explain why you are not following the recommendations:

- I do not understand or am confused about the treatment(s)
- I cannot afford the treatment(s)
- I am concerned my doctor may have misdiagnosed my condition
- I believe I am being over-treated for my condition or have been recommended services that are unnecessary. Please explain:
- I believe I am being under-treated for my condition. Please explain:
- I do not agree with or am apprehensive about the recommended treatment(s) because:
- I do not want to follow the health recommendations

2. To become more comfortable with the recommended treatment(s), I plan to:

- Return to my doctor for additional consultation
- Seek advice from another doctor

Responses indicating a level of non-adherence prompt a series of questions to determine why the patient is not willing or able to follow recommendations and what they intend to do

**Multimedia Screenshot 6** - Patients declare their adherence with recommended treatments, or provide a reason for nonadherence.
