

Multimedia Appendix 1. Data extraction form.

<b>Main Category</b>	<b>Subcategory</b>	<b>Item</b>
<b>Website characteristics</b>	<b>Origin</b>	
		Country of origin
	<b>*Organisational affiliation</b>	
		<sup>a</sup> Is it affiliated with an organisation (Yes, no- if yes who? )
	<b>Accessibility</b>	
		Registration (yes/no—if yes, how?)
		Log-in available on website (yes/no)
		<sup>a</sup> International accessibility
		<sup>b</sup> Mobile app available (yes/no)
		<sup>a</sup> Was there paid access to certain content?
	<b>Credibility</b>	
		Advertisements (yes/no- if yes, relevant vs irrelevant)
		Presented contact details (yes/no)
		Specified authorship (yes/no)
		Terms of use specified (yes/no)
		Privacy notice specified (yes/no)
<b>Program characteristics</b>	<b>Intervention focus</b>	
		Target <sup>c</sup> depression issue
		Target audience
	<b>Intervention design</b>	
		Therapist support (yes/no—if yes, specify)
		Suggested or set treatment length
		Number of modules
	<b>Intervention delivery</b>	
		Presentation format
<b>Intervention characteristics</b>	<b>Therapeutic approach</b>	
		CBT; others (specify)
		Other therapeutic elements
<b>Main Category</b>	<b>Subcategory</b>	<b>Item</b>
	<b>Intervention features</b>	
		Worksheets (yes/no—if yes, specify format)
		Mood or symptom monitoring (yes/no)
		Diary (yes/no)
		Forum (yes/no)
		Other features (yes/no—if yes, specify)
<b>Empirical evidence</b>	<b>Empirical evidence for program efficacy</b>	
		Scrutinized program website for relevant information, <sup>a</sup> searched the

		following data bases: PubMed, CINAHL, Cochrane Library, and Web of Science, contacted the author
	<b><sup>a</sup>Empirical evidence for program efficacy after stroke</b>	
		<sup>a</sup> Scrutinized program website for relevant information, searched the following data bases: PubMed, CINAHL, Cochrane Library, and Web of Science, contacted the author
	<b><sup>a</sup>Empirical evidence for program efficacy for people with post-stroke aphasia</b>	
		<sup>a</sup> Scrutinized program website for relevant information, searched the following data bases: PubMed, CINAHL, Cochrane Library, and Web of Science, contacted the author
